SUMMARY

Full Stack Software Developer with about 4 years of experience in the technology field, working with Angular, React, Spring Boot and Node.js. Graduated in Systems Analysis and Development (Fatec) and currently pursuing a Bachelor's in Software Engineering (UMC). Focused on software architecture and engineering best practices.

PROFESSIONAL EXPERIENCE

Mogi das Cruzes City Hall

04/2025 – Present

Software Development Intern

- Developed applications for municipal departments, automating workflows and improving operational efficiency of internal processes, facilitating public access to government services.
- Built and maintained systems using Angular, TypeScript and Spring Boot.
- Gathered requirements directly with internal stakeholders to ensure solutions aligned with real business needs.

BootComp Technology

07/2023 – 05/2024

Technical Support

- Configured and performed quality assurance (QA) testing on corporate chatbot systems, ensuring stable deliveries aligned with client needs.
- Assisted clients with requirements gathering and technical issue resolution.
- Used Trello for task organization and workflow tracking, ensuring deadlines and quality standards.
